SUBJECT:

Research Proposal

50X1

1. Attached is a revised research proposal from and a copy of a letter to OCPW, from explaining the practical significance of the project in "plain language."

2. Apparently USIA and OCPW will have more interest in this proposal than other government agencies and it seems not unlikely that they will support the project. Although your office has indicated previously that it would not be in a position to give primary support to the project, I would appreciate a statement of your interest in the project in the event that it is supported by other government agencies.
